First-year PhD student in AI Safety and Cognitively Inspired Machine Learning at Helmholtz Munich, supervised by Dr. Eric Schulz. I combine academic research, industry experience, and interdisciplinary thinking to develop AI systems that are safe, interpretable, and aligned with human values.

EDUCATION

Helmholtz Institute for Human-Centered AI <i>PhD in AI Safety</i> Supervisor: Dr. Eric Schulz (Helmholtz Munich)	Munich, Germany 05/2026 – Present
University of Amsterdam <i>MSc in Artificial Intelligence (cum laude)</i> Thesis: Contextual Sensitivity of Moral Beliefs in Large Language Models	Amsterdam, Netherlands 09/2023 – 05/2026
University of Tuebingen <i>BSc in Cognitive Science</i> Thesis: Video Background Extraction with a Masked-Autoencoder-Based Neural Network	Tuebingen, Germany 10/2019 – 07/2023

EXPERIENCE

KPN Amsterdam <i>Research & Development Intern for XAI</i> Researched Explainable AI for Customer Call Classification through Concept-Bottleneck Models using LLMs.	Amsterdam, Netherlands 02/2025 – 08/2025
University of Amsterdam <i>Teaching Assistant</i> Led tutorials and seminars for graduate courses, instructing and supervising 30-200 students.	Amsterdam, Netherlands 09/2024 – 02/2026
ELLIS Unit Amsterdam <i>Project Assistant</i> Contributed to the planning and communication of projects that are supported and organized by ELLIS.	Amsterdam, Netherlands 04/2024 – 08/2024
Neuro-Cognitive Modeling Group <i>Research Assistant</i> Provided technical consultancy for professors associated with the lab, graded assignments.	Tuebingen, Germany 03/2023 – 08/2023
Leibnitz-Institute for Knowledge Media Research <i>Research Assistant</i> Supervised in-person psychological experiments and helped analyzing the obtained data.	Tuebingen, Germany 12/2021 – 10/2022
